## Y-Chromosome DNA Project for Maryland Dowells and Dewells Descended from Philip Dowell

Individuals thought to share the same pattern through 37 markers.

Shares same values as Ron, Barry, Howard and Dave on 34 of 37 markers

Results Pending

Biologically Unrelated

The Dowells at the bottom of the purple shaded areas have confirmed through DNA testing that they all have a common ancestor within 4 generations (over 95% probability). Peter Sr. had 4 sons, the lines for three of which are documented through traditional means, now confirmed through DNA testing. Peter's son John was the first to be given a land grant (1783) in North Carolina for his Revolutionary War services (Philip, Richard and William received similar grants in 1784). As best as we can determine, John Sr. had only one son, John who married Sally Dowell (Uncle Philip's daughter) in 1797.

That line of the family is not referenced elsewhere in Dowell family tree research. My ggf John, born in 1810 in North Carolina, fits the profile of the John and Sally Dowell family so far documented.

John Jr. is listed in the 1800 Rowan Cy NC census with Sally and one male under 10. John Sr. is still in Rowan cy in the 1810 census, but William and James are listed in Iredell. In the 1820 census John Jr is listed in the Iredell census with a family of 2 males and 3 females under ten, 1 male and female under 16, 2 females under 26, a male over 45 and over, female under 45\* and a female slave under 14.

We do not find John and Sally in the Iredell census of 1810 -- most likely because they are living in Wilkes Cy, NC. Land transactions in 1813 list John Jr. being from Wilkes Cy (probably where he was living during the 1810 census), and receiving a tract of land in Rowan Cy.

I suspect that my ggf John (III), who in 1831 married Phebe Owens in Washington Cy, IN, is one of John Jr's children. From another source I suspect that his younger brother is Philip who was born in Wilkes Cy in 1811.

\*Both John and Sally were born in 1775. The age category for the 1820 census breaks at 45 years. An explanation is that John's birthday was before and Sally's after the census was taken.

### Helpful Hints

1. This Map's INDEX can be found on the preceding pages.
2. Refer to Map "C" to see where this Township lies within Washington County, Indiana.
3. Numbers within square brackets [ ] denote a multi-patentee land parcel (multi-owner). Refer to Appendix "C" for a full list of members in this group.
4. Areas that look to be crowded with Patentees usually indicate multiple sales of the same parcel (Re-issues) or Overlapping parcels. See this Township's Index for an explanation of these and other circumstances that might explain "odd" groupings of Patentees on this map.

# Road Map

### Helpful Hints

1. This road map has a number of uses, but primarily it is to help you: a) find the present location of land owned by your ancestors (at least the general area), b) find cemeteries and city-centers, and c) estimate the route/roads used by Census-takers & tax-assessors.
2. If you plan to travel to Washington County to locate cemeteries or land parcels, please pick up a modern travel map for the area before you do. Mapping old land parcels on modern maps is not as exact a science as you might think. Just the slightest variations in public land survey coordinates, estimates of parcel boundaries, or road-map deviations can greatly alter a map's representation of how a road either does or doesn't cross a particular parcel of land.

# Water Map

### Helpful Hints

1. This Map takes a different look at the same Congressional Township displayed in the preceding two maps. It presents features that can help you better envision the historical development of the area: a) Water-bodies (lakes & ponds), b) Water-courses (rivers, streams, etc.), c) Railroads, d) City/town center-points (where they were oftentimes located when first settled), and e) Cemeteries.
2. Using this "Historical" map in tandem with this Township's Patent Map and Road Map, may lead you to some interesting discoveries. You will often find roads, towns, cemeteries, and waterways are named after nearby landowners: sometimes those names will be the ones you are researching. See how many of these research gems you can find here in Washington County.

## Phebe Owens (wife of John Dowell)

Posted by: [Roma Simons](#) (ID \*\*\*\*\*9262)

Am trying to find the parents of Phebe Owens (bn in Kentucky?) who married John Dowell in Salem Washington County Indiana then moved with their children in late 1860s to Vigo County, Indiana. Believe she and John Dowell are buried near Prairie Creek Vigo County Indiana. Their daughter, Nancy Jane Dowell, md George Washington Bishop. Other children include Ormsby, Gentry, Julia Ann (md Solomon Hauger).
